## COLOUR CHART

### Artists' Watercolours

ROSA Gallery Artists' Watercolours are developed according to the requirements and recommendations of the professional artists. The paints are based on organic gum arabic and premium finely ground natural pigments. Half of the colours of the range are single-pigment, which makes it possible to create pure shades when mixed.

- **Organic gum arabic** provides perfect adhesion and even colour flow
- **Organic and inorganic pigments** of each colour are selected taking into consideration the expectations of professional artists
- **High-quality finely ground pigments** guarantee purity and transparency of colours
- **High pigment concentration** supplies the artists with a wide range of colour: from airy transparent to full opaque
- **High lightfastness of each colour** is enabled via thorough selection and testing of the pigments for colour intensity and permanence
- **Traditional technique of natural drying** of the watercolour provides easy dilution and brushing properties

ROSA Gallery Artists' Watercolours are designed and produced in Ukraine. High-quality materials, professional approach and modern specialized equipment ensure ultimate quality of our products.

**Available:**

- 60 colours in pans by 2,5 ml
- 60 colours in tubes by 10 ml
- Sets „CLASSIC“: 12x2,5 ml, 24x2,5 ml in cardboard boxes
